

1.	Record Nr.	UNICAMPANIAVAN00037696
	Autore	Bartoli, Roberto <1973- >
	Titolo	Colpevolezza : tra personalismo e prevenzione / Roberto Bartoli
	Pubbl/distr/stampa	Torino, : Giappichelli, [2005]
	ISBN	88-348-5334-2
	Descrizione fisica	X, 257 p. ; 23 cm.
	Lingua di pubblicazione	Italiano
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910438256703321
	Titolo	The 19th International Conference on Industrial Engineering and Engineering Management : Management System Innovation // edited by Ershi Qi, Jiang Shen, Runliang Dou
	Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
	ISBN	3-642-38427-7
	Edizione	[1st ed. 2013.]
	Descrizione fisica	1 online resource (1595 p.)
	Altri autori (Persone)	QiErshi <1953-> ShenJian DouRunliang
	Disciplina	620.072 620.8/2
	Soggetti	Business Management science Technological innovations Business and Management Innovation and Technology Management
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.

Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Technology and Knowledge Management -- E-business Process and information Management -- Global Manufacturing and Management -- Innovation Management.
Sommario/riassunto	<p>The International Conference on Industrial Engineering and Engineering Management is sponsored by the Chinese Industrial Engineering Institution, CMES, which is the only national-level academic society for Industrial Engineering. The conference is held annually as the major event in this arena. Being the largest and the most authoritative international academic conference held in China, it provides an academic platform for experts and entrepreneurs in the areas of international industrial engineering and management to exchange their research findings. Many experts in various fields from China and around the world gather together at the conference to review, exchange, summarize and promote their achievements in the fields of industrial engineering and engineering management. For example, some experts pay special attention to the current state of the application of related techniques in China as well as their future prospects, such as green product design, quality control and management, supply chain and logistics management to address the need for, amongst other things low-carbon, energy-saving and emission-reduction. They also offer opinions on the outlook for the development of related techniques. The proceedings offers impressive methods and concrete applications for experts from colleges and universities, research institutions and enterprises who are engaged in theoretical research into industrial engineering and engineering management and its applications. As all the papers are of great value from both an academic and a practical point of view, they also provide research data for international scholars who are investigating Chinese style enterprises and engineering management.</p>
