

1. Record Nr.	UNINA9910438333603321
Autore	Creemers Bert
Titolo	Teacher Professional Development for Improving Quality of Teaching / / by Bert Creemers, Leonidas Kyriakides, Panayiotis Antoniou
Pubbl/distr/stampa	Dordrecht : , : Springer Netherlands : , : Imprint : Springer, , 2013
ISBN	9781283849869 1283849860 9789400752078 9400752075
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (269 p.)
Classificazione	5,3 DN 2000 DP 1700
Altri autori (Persone)	AntoniouPanayiotis KyriakidesLeonidas
Disciplina	371.1
Soggetti	Teachers - Training of Learning, Psychology of Educational tests and measurements School management and organization Teaching and Teacher Education Instructional Psychology Assessment and Testing Organization and Leadership
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface -- List of Figures -- List of Tables -- PART 1: Research on Teacher Training and Professional Development.- PART 2: Main Foundations of Research on Teacher Effectiveness.- PART 3: Combining Teacher Effectiveness Research with Research on Teacher Training and Professional Development.- References. – Index.
Sommario/riassunto	This book makes a major contribution to knowledge and theory by drawing implications of teacher effectiveness research for the field of teacher training and professional development. The first part of the book provides a critical review of research on teacher training and

professional development and illustrates the limitations of the main approaches to teacher development such as the competence-based and the holistic approach. A dynamic perspective to policy and practice in teacher training and professional development is advocated. The second part of the book provides a critical review of research on teacher effectiveness. The main phases of this field of research are analysed. It is pointed out that teacher factors are presented as being in opposition to one another. An integrated approach in defining quality of teaching is adopted. The importance of taking into account findings of studies investigating differential teacher effectiveness is argued. Another significant limitation of this field of research is that the whole process of searching for teacher effectiveness factors was not able to have a significant impact upon teacher training and professional development. For this reason it is advocated that teacher training and professional development should be focused on how to address grouping of specific teacher factors associated with student learning and on how to help teachers improve their teaching skills by moving from using skills associated with direct teaching only to more advanced skills concerned with new teaching approaches and differentiation of teaching. The book refers to studies conducted in different countries illustrating how the proposed approach can be used by policy and practice in teacher education. Specifically, the book provides evidence supporting the validity of the theoretical framework upon which this approach is based. Moreover, experimental and longitudinal studies supporting the use of this approach for improvement purposes are presented and suggestions for further research utilising and expanding the Dynamic Approach for teacher training and professional development are provided.
