Sommario/riassunto	As a result of globalization, the barriers between countries are coming down. There is more interaction between countries than ever and mutual understanding and communication have become essential considerations. In such an atmosphere, the Korea Legislation Research Institute has published this book to spread awareness of outstanding Korean law and of its legal system throughout the globe, as the authoritative sources of legal information for other countries. This book explains Korean law in nine chapters that focus on its distinguishing aspects. The nine authors who have participated are all prominent scholars who have contributed their expertise to the project.
