

1. Record Nr.	UNINA9910446328903321
Titolo	Combating micronutrient deficiencies [[electronic resource]] : food-based approaches / / edited by Brian Thompson and Leslie Amoroso
Pubbl/distr/stampa	Rome, : Food and Agricultural Organisation of the United Nations Oxfordshire, U.K., : CAB International, c2011
ISBN	1-282-90633-X 9786612906336 1-84593-715-5
Descrizione fisica	1 online resource (432 p.)
Altri autori (Persone)	ThompsonBrian <1953-> AmorosoLeslie <1977->
Disciplina	362.196/39
Soggetti	Malnutrition - Prevention Trace elements in nutrition Enriched foods
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Strategies for preventing multi-micronutrient deficiencies : a review of experiences with food-based approaches in developing countries / Rosalind S Gibson -- Addressing micronutrient malnutrition to achieve nutrition security / Prakash Shetty -- Agricultural interventions and nutrition : lessons from the past and new evidence / Mary Arimond ... [et al.] -- A 3 year cohort study to assess the impact of an integrated food-and livelihood-based model on undernutrition in rural western Kenya / Jessica Fanzo ... [et al.] -- Food-based, low-cost strategies to combat micronutrient deficiencies : evidence-based interventions in Lesotho and Malawi / Juliet M. Aphane, Nerisa Pilime, Naomi J. Saronga -- Animal source foods as a food-based approach to address nutrient deficiencies and functional outcomes : a study among Kenyan schoolchildren / Charlotte G. Neumann ... [et al.] -- Small animal revolving funds : an innovative programming model to increase access to and consumption of animal source foods by rural households in Malawi / A. Carolyn MacDonald ... [et al.] -- Aquaculture's role in improving food and nutrition security / Brian

Thompson, Rohana Subasinghe -- A home gardening approach developed in South Africa to address vitamin A deficiency / Mieke Faber, Sunette Laurie -- AVRDC : the World Vegetable Center's approach to alleviate malnutrition / Madan L Chadha ... [et al.] -- Introducing vegetables into the India Mid-Day Meal Programme (MDM) : the potential for dietary change / Ellen Muehlhoff ... [et al.] -- Developing micronutrient-rich snacks for pre-conception and antenatal health : the Mumbai Maternal Nutrition Project (MMNP) / Devi Shivashankaran ... [et al.] -- Approaches and lessons learned for promoting dietary improvement in Pohnpei, Micronesia / Lois Englberger ... [et al.] -- A food systems approach to increase dietary zinc intake in Bangladesh based on an analysis of diet, rice production and processing / Anne-Marie B. Mayer ... [et al.] -- Combating iron deficiency : food-based approaches / Brian Thompson -- Human micronutrient deficiencies : linkages with micronutrient deficiencies in soils, crops and animal nutrition / Maarten Nube, Roelf L Voortman -- Nationwide supplementation of sodium selenate to commercial fertilizers : history and 20-year results from the Finnish selenium monitoring programme / Georg Alfthan ... [et al.] -- Leaf concentrate and other benefits of leaf fractionation / M. N. Glyn Davys ... [et al.] -- Disability-Adjusted Life Years (DALYS) : a methodology for conducting economic studies of food-based interventions such as biofortification / Salomon Perez Sussrez.

Sommario/riassunto

Micronutrient deficiency affects more than two billion people in the world today, contributing to the vicious cycle of malnutrition and underdevelopment. Micronutrient deficiencies have long-ranging effects on health, learning ability and productivity. Food-based approaches, which include food production, dietary diversification and food fortification, are sustainable strategies for improving the micronutrient status of populations. This book focuses on practical, sustainable actions for overcoming micronutrient deficiencies through increased access to, and consumption of, adequate quantities
