Sommario/riassunto	"The academic Hospital Medicine Faculty at Washington University perform well over 1000 bedside procedures per year, the vast majority of which are performed in a teaching capacity. I serve as Director of our Procedure Service, a rotation where interns and residents are supervised performing a variety of invasive procedures. This book is meant to serve as a comprehensive, hands-on guide to performing bedside procedures. We chose procedures commonly performed by most housestaff, but especially those in Internal Medicine or Surgery, or those who are enrolled in a preliminary or transitional internship"-- Provided by publisher.
