Sommario/riassunto	Currently in its third edition, the NEC suite has become one of the UK's leading families of standard forms of contract for major construction and civil engineering projects. Part of the NEC suite, the Professional Services Contract (PSC) was drafted with the same process-based approach and objectives, offering a standard contract for the appointment of consultants providing professional services in an engineering or construction project. Embodying best practice in terms of project management, the basic philosophy of the PSC differs from

### Sommario/riassunto

The papers collected in this book cover contemporary and original research on semantic and grammatical issues of nouns and noun phrases, verbs and sentences, and aspects of the combination of nouns and verbs, in a great variety of languages. A special focus is put on noun types, tense and aspect semantics, granularity of verb meaning, and subcompositionality. The investigated languages and language groups include Austronesian, East Asian, Slavic, German, English, Hungarian and Lakhota. The collection provided in this book will be of interest to researchers and advanced students specialising in the fields of semantics, morphology, syntax, typology, and cognitive sciences.
