Sommario/riassunto	The third of three volumes of essays by Quentin Skinner, one of the

world's leading intellectual historians. This collection includes some of his most important essays on Thomas Hobbes, each of which has been carefully revised for publication in this form. In a series of writings spanning the past four decades Professor Skinner examines, with his customary perspicuity, the evolution and character of Hobbes's political thought. An indispensable work in its own right, this volume also serves as a demonstration of those methodological theories propounded in Volume I, and as an appositional commentary on the Renaissance values of civic virtue treated in Volume II. All of Professor Skinner's work is characterised by philosophical power, limpid clarity, and elegance of exposition; these essays, many of which are now recognised classics, provide a fascinating and convenient digest of the development of his thought. Professor Skinner has been awarded the Balzan Prize Life Time Achievement Award for Political Thought, History and Theory. Full details of this award can be found at http://www.balzan.it/News_eng.aspx?ID=2474
