| Sommario/riassunto | This collection aims to explore different conceptions of epistemological inquiry and their influence on pedagogy and the curricular content of primary and secondary education. It is arguable that curriculum policy |

makers have continued to subscribe to a foundationalist paradigm of rational educational planning. This is, however, considered largely untenable by educational philosophers in light of the impact of 'postmodern' philosophical critiques on the notions of objectivity, truth and authority in our claims for knowledge. This volume fills a major gap in the current literature of educational
