

1. Record Nr.	UNINA9910449741603321
Titolo	Linux on IBM e server zSeries and S/390 [[electronic resource]] : performance toolkit for VM // [Gregory Geiselhart ... et al.]
Pubbl/distr/stampa	Poughkeepsie, NY, : IBM, International Technical Support Organization, 2004
Edizione	[1st ed.]
Descrizione fisica	xiv, 244 p. : ill
Collana	IBM redbooks
Altri autori (Persone)	GeiselhartGregory
Disciplina	005.4/3
Soggetti	Virtual computer systems IBM System/390 (Computer) Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"August 2004." "SG24-6059-00."
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This IBM Redbooks publication discusses Performance Toolkit for VM, a performance monitoring and analysis tool for z/VM. Derived from the earlier FCON/ESA product, Performance Toolkit for VM enables system administrators to collect and analyze VM performance data. Both real-time and history data can be processed by Performance Toolkit for VM, and it provides most of the functions that are available in Real Time Monitor (RTM) and Performance Reporting Facility (PRF). In this book, we present an overview of the functions and features of Performance Toolkit for VM. We show how to navigate through its major monitoring screens and configure it. We also describe configuration for monitoring remote z/VM systems. Using examples, we illustrate how to monitor your z/VM system to identify potential performance problems. Major performance factors for running Linux guests under z/VM are discussed.
