

1. Record Nr.	UNINA9910449812803321
Autore	Dietrich Jens
Titolo	Strategies for two-dimensional crystallization of proteins using lipid monolayers [[electronic resource] /] / Jens Dietrich, Catherine Venien-Bryan
Pubbl/distr/stampa	London, : Imperial College Press, c2005
ISBN	1-281-86667-9 9786611866679 1-86094-678-X
Descrizione fisica	1 online resource (154 p.)
Altri autori (Persone)	Venien-BryanCatherine
Disciplina	572.696
Soggetti	Membrane proteins Crystallization Electron microscopy - Technique Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction; Contents; 1 Two-dimensional Crystallization on Lipid Monolayers; 2 Two-dimensional Crystallization of Membrane Proteins; 3 Methods to Monitor Surface Crystallization; 4 Electron Microscopic Observations and Image Analysis; 5 Practical Considerations; 6 Other New Methods; Appendix; Glossary; Bibliography; Index
Sommario/riassunto	Strategies for Two-Dimensional Crystallization of Proteins Using Lipid Monolayers presents an overview of different methods that lead to structure determination by electron microscopy. These methods have proven to be extremely successful, especially for elucidating the structure of membrane proteins.
