## Sommario/riassunto

"Internationally recognized scholar David Ellenson shares twenty-three of his most representative essays, drawing on three decades of scholarship and demonstrating the consistency of the intellectual-religious interests that have animated him throughout his lifetime. These essays center on a description and examination of the complex push and pull between Jewish tradition and Western culture. Ellenson addresses gender equality, women's rights, conversion, issues relating to who is a Jew, the future of the rabbinate, Jewish day schools, and other emerging trends in American Jewish life. As an outspoken advocate for a strong Israel that is faithful to the democratic and Jewish values that informed its founders, he also writes about religious tolerance and pluralism in the Jewish state. The former president of Hebrew Union College-Jewish Institute of Religion, the primary seminary of the Reform movement, Ellenson is widely respected for his vision of advancing Jewish unity and of preparing leadership for a contemporary Judaism that balances tradition with the demands of a changing world. Scholars and students of Jewish religious thought, ethics, and modern Jewish history will welcome this erudite collection by one of today's great Jewish leaders"--

| Sommario/riassunto      | Depression affects between 10-15% of older people, making it the most frequently encountered mental health condition in later life. Despite this, the condition is easily missed in clinical practice or not adequately treated. Part of the Oxford Psychiatry Library, this concise pocketbook will provide an accessible account of what depression in older people is like, why it is important and what treatments help. The text will highlight which areas of depression are of special relevance to later life, how to diagnose depression in an older person, the overlap with dementia and various other physic |
