HE 8 The Hong Kong SAR Government, Civil Society and SARS Elspeth Thomson and YOW Cheun HoeIndex Sommario/riassunto In the first half of 2003, severe acute respiratory syndrome (SARS) struck China (including Hong Kong), causing panic and claiming manylives. The unknown nature of SARS at that time also jolted theeconomic growth of China and Hong Kong, disrupted the social life

oftheir citizens and created much stress and strain for their political systems and governance. Like other major crises, the

management of the SARS crisis provides a good opportunity to examine the strengths andweaknesses of the political systems in China and Hong Kong. From theoutset, scholars at the East Asian Institute (EAI) followed c
