Sommario/riassunto	Classroom assistants are increasingly relied upon to support the most needy pupils, and they have had significantly less training than their colleagues with qualified teacher status. It is clear that these assistants need some very practical materials. This book provides photocopiable resources so that classroom assistants can get to work. The book covers all they need to know about literacy, it explains in very simple terms what is expected from them and: *how the National Literacy Strategy works* how to support reading, writing and spelling *how to select fiction and non-fiction<
