": represented voice in organizational change discourse Post-crisis discourse and organizational change, failure and renewal Matthew W. Seeger Department of Communication, Wayne State University, Detroit, Michigan, USA Robert R. Ulmer Department of CommuniAfterword: why language matters in the analysis of organizational change; Note from the publisher |
| Sommario/riassunto | This e-book is the first of two issues that JOCM has devoted to the topic of discourse and organizational change. The five papers are all empirical studies and utilise a variety of discourse analytic perspectives |

and methodologies. The issue concludes by discussing the potential for future discursive studies of organizational change phenomena and the implications of this for the field of organizational change more generally.
