

1. Record Nr.	UNINA9910450045803321
Autore	Minkova Donka <1944->
Titolo	Alliteration and sound change in early English // Donka Minkova [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2003
ISBN	1-107-11355-5 1-280-41859-1 0-511-17723-2 0-511-03975-1 0-511-15819-X 0-511-33000-6 0-511-48696-0 0-511-05378-9
Descrizione fisica	1 online resource (xix, 400 pages) : digital, PDF file(s)
Collana	Cambridge studies in linguistics ; ; 101
Disciplina	427/.02
Soggetti	English language - Middle English, 1100-1500 - Phonology English language - Middle English, 1100-1500 - Versification English language - Old English, ca. 450-1100 - Versification English language - Old English, ca. 450-1100 - Phonology English language - Phonology, Historical Alliteration
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 371-388) and index.
Nota di contenuto	1. Social and linguistic setting of alliterative verse in Anglo-Saxon and Medieval England -- 2. Linguistic structures in English alliterative verse -- 3. Segmental histories: velar palatalization -- 4. Syllable structure -- 5. Onset and cluster alliteration in Old English: the case of sp-, st-, sk- -- 6. Onset and cluster alliteration in Middle English -- 7. Verse evidence for cluster simplification in Middle English.
Sommario/riassunto	This 2003 study uses evidence from early English verse to reconstruct the course of some central phonological changes in the history of the language. It builds on the premise that alliteration reflects faithfully the acoustic identity and similarity of stressed syllable onsets. Individual

chapters cover the history of the velars, the structure and history of vowel-initial syllable onsets, the behaviour of onset clusters, and the chronology and motivation of cluster reduction (gn-, kn-, hr-, hl-, hn-, hw-, wr-, wl-). Examination of the patterns of group alliteration in Old and Middle English reveals a hierarchy of cluster-internal cohesiveness which leads to new conclusions regarding the causes for the special treatment of sp-, st-, sk- in alliteration. The analysis draws on phonetically based Optimality-Theoretic models. The book presents valuable information about the medieval poetic canon and elucidates the relationship between orality and literacy in the evolution of English verse.
