

1. Record Nr.	UNINA9910450078703321
Titolo	Climate change, adaptive capacity and development [[electronic resource] /] / editors, Joel B. Smith, Richard J.T. Klein, Saleemul Huq
Pubbl/distr/stampa	London, : Imperial College Press, c2003
ISBN	1-281-86654-7 9786611866549 1-86094-581-3
Descrizione fisica	1 online resource (357 p.)
Altri autori (Persone)	SmithJoel B KleinRichard J. T HuqSaleemul
Disciplina	333.714
Soggetti	Climatic changes - Environmental aspects Climatic changes - Developing countries Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"The 13 chapters of this book are based on papers presented at the workshop."
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Contents; Acknowledgments; 1. Introduction; 2. From Adaptation to Adaptive Capacity and Vulnerability Reduction; 3. Social Aspects of Adaptive Capacity; 4. Adaptive Capacity; 5. Lessons from Famine Early Warning and Food Security for Understanding Adaptation to Climate Change; 6. Assessing Vulnerability in the Context of Changing Socioeconomic Conditions; 7. Do We Have the Adaptive Capacity to Develop and Use the Adaptive Capacity to Adapt?; 8. The Legal Framework of Adaptation and Adaptive Capacity; 9. Adaptation Funding-Legal and Institutional Issues; 10. Adaptative Capacity 11. Adaptation to Climatic Variability and Change in Tlaxcala, Mexico12. Engaging Africa in Adaptation to Climate Change; 13. Adaptation, Sustainable Development and Equity; 14. Enhancing the Capacity of Developing Countries to Adapt to Climate Change; Appendix-Workshop Agenda and List of Participants; List of Participants
Sommario/riassunto	The Third Assessment Report of the Intergovernmental Panel on

ClimateChange (IPCC) has presented strong evidence that human-induced climatechange is occurring and that all countries of the world will beaffected and need to adapt to impacts. The IPCC points out that manydeveloping countries are particularly vulnerable because of theirrelatively low adaptive capacity.
