

1. Record Nr.	UNINA9910450165303321
Autore	Meyer Charles F.
Titolo	English corpus linguistics : an introduction // Charles F. Meyer [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2002
ISBN	1-107-12483-2 0-511-04200-0 1-280-43640-9 0-511-17679-1 0-511-15769-X 0-511-32980-6 0-511-60631-1 0-511-04475-5
Descrizione fisica	1 online resource (xvi, 168 pages) : digital, PDF file(s)
Collana	Studies in English language
Disciplina	420/.285
Soggetti	English language - Research - Data processing English language - Discourse analysis - Data processing Computational linguistics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 153-161) and index.
Nota di contenuto	Cover; Half-title; Series-title; Title; Copyright; Dedication; Contents; Preface; 1 Corpus analysis and linguistic theory; 2 Planning the construction of a corpus; 3 Collecting and computerizing data; 4 Annotating a corpus; 5 Analyzing a corpus; 6 Future prospects in corpus linguistics; Appendix 1 Corpus resources; Appendix 2 Concordancing programs; References; Index
Sommario/riassunto	English Corpus Linguistics is a step-by-step guide to creating and analyzing linguistic corpora. It begins with a discussion of the role that corpus linguistics plays in linguistic theory, demonstrating that corpora have proven to be very useful resources for linguists who believe that their theories and descriptions of English should be based on real rather than contrived data. Charles F. Meyer goes on to describe how to plan the creation of a corpus, how to collect and computerize data for

inclusion in a corpus, how to annotate the data that are collected, and how to conduct a corpus analysis of a completed corpus. The book concludes with an overview of the challenges that corpus linguists face to make both the creation and analysis of corpora much easier undertakings than they currently are. Clearly organized and accessibly written, this book will appeal to students of linguistics and English language.
