

1. Record Nr.	UNINA9910450182703321
Autore	Ovchinnikov S. G (Sergei Gennadievich)
Titolo	Hubbard operators in the theory of strongly correlated electrons [[electronic resource] /] / S.G. Ovchinnikov, V.V.Valkov
Pubbl/distr/stampa	London, : Imperial College Press, c2004
ISBN	1-281-86658-X 9786611866587 1-86094-597-X
Descrizione fisica	1 online resource (254 p.)
Altri autori (Persone)	ValkovV. V
Disciplina	530.411
Soggetti	Hubbard model Electron configuration - Mathematical models Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; PART 1; PART 2; References; Index
Sommario/riassunto	This book provides the first systematic discourse on a very peculiar approach to the theory of strongly correlated systems. Hubbard X-operators have been known for a long time but have not been widely used because of their awkward algebra. The book shows that it is possible to deal with X-operators even in the general multilevel local eigenstate system, and not just in the case of the nondegenerate Hubbard model. X-operators provide the natural language for describing quasiparticles in the Hubbard subbands with unusual doping and temperature-dependent band structures.
