|-------------------------|--|
| 1. Record Nr. | UNINA9910450263403321 |
| Titolo | Developing second order cybernetics [[electronic resource] /] / Guest editor Dr. Bernard Scott |
| Pubbl/distr/stampa | Bradford, England, : Emerald Group Publishing, c2004 |
| ISBN | 1-280-51442-6 9786610514427 1-84544-179-6 |
| Descrizione fisica | 1 online resource (205 p.) |
| Collana | Kybernetes: the international journal of systems & cybernetics ; ; v.33, no. 9/10 |
| Altri autori (Persone) | ScottBernard |
| Disciplina | 301.018 |
| Soggetti | Cybernetics Systems engineering Electronic books. |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di contenuto | Contents; Abstracts and Keywords; Preface; Guest Editor's introduction; Second-order cybernetics; The purpose of second-order cybernetics; Reminiscences of McCulloch and Pitts and some others; Questions about constructivism; Remarks on the foundations of cybernetics and cognitive science; Self-organisation as quality control in inquiry; Essential structure in physical observation; Axioms from interactions of actors theory; Cognitive and neuropsychological basis for quantum mechanics; Approximation of multiple integrals by simple integrals involving periodic functions kth-order Markov chain-based approximation of the Shannon entropy of Gaussian photon-counting processesA cybernetical analysis of entities in multilevel systems; Asymptotic behaviour and statistical applications of weighted (h,p)-divergences; Twenty-first century; Book reviews; News, conferences and technical reports; Special announcements |
| Sommario/riassunto | Special double issue: developing second order cybernetics - a collection of papers from the UK Cybernetics Society Guest Editor: Bernard Scott This special double issue is based on the presentations |

made at a conference with the theme "Second Order Cybernetics (SOC)",
which had been organised by the UK Cybernetics Society in London in
2002. Previously published in: International Journal of Systems &
Cybernetics, Volume 33, Number 9/10, 2004
