

1. Record Nr.	UNINA9910450302403321
Autore	Tal Alon <1960->
Titolo	Pollution in a promised land [[electronic resource]] : an environmental history of Israel // Alon Tal
Pubbl/distr/stampa	Berkeley, Calif., : University of California Press, c2002
ISBN	1-59734-819-8 9786612762710 0-520-93649-3 1-282-76271-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (589 p.)
Disciplina	363.7/02/095694
Soggetti	Pollution - Israel Environmental protection - Israel Environmental policy - Israel Israel Environmental conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 435-516) and index.
Nota di contenuto	Front matter -- Contents -- Illustrations -- Acknowledgments -- Preface -- 1. The Pathology of a Polluted River: An Introduction to Israel's Environmental Crises -- 2. Reclaiming a Homeland: Zionism's Mixed Ecological Message -- 3. Palestine's Environment, 1900-1949: Prelude to Disaster or Benign Half-Century? -- 4. The Forest's Many Shades of Green -- 5. The Emergence of an Israeli Environmental Movement -- 6. A General Launches a War for Wildlife -- 7. The Quantity and Quality of Israel's Water Resources -- 8. Israel's Urban Environment, 1948-1988: The Politics of Neglect -- 9. A Ministry of the Environment Comes of Age -- 10. Israel, Arabs, and the Environment -- 11. Environmental Activism Hits Its Stride -- 12. Toward a Sustainable Future? -- Notes -- Index
Sommario/riassunto	Virtually undeveloped one hundred years ago, Israel, the promised "land of milk and honey," is in ecological disarray. In this gripping book, Alon Tal provides--for the first time ever--a history of environmentalism in Israel, interviewing hundreds of experts and activists who have made it their mission to keep the country's

remarkable development sustainable amid a century of political and cultural turmoil. The modern Zionist vision began as a quest to redeem a land that bore the cumulative effects of two thousand years of foreign domination and neglect. Since then, Israel has suffered from its success. A tenfold increase in population and standard of living has polluted the air. The deserts have bloomed but groundwater has become contaminated. Urban sprawl threatens to pave over much of the country's breathtaking landscape. Yet there is hope. Tal's account considers the ecological and tactical lessons that emerge from dozens of cases of environmental mishaps, from habitat loss to river reclamation. Pollution in a Promised Land argues that the priorities and strategies of Israeli environmental advocates must address issues beyond traditional green agendas.
