Introduction -- Strategy in an age of revolution -- Our principles as an element of strategy -- America's large purposes in the new century -- Security in the twenty-first century : a larger understanding -- Principled engagement : expanding security through opportunity -- The new security and the use of military power -- Who we are : temptations of empire -- Restoring the Republic...and its principles -- Conclusion.

Sommario/riassunto

Today, even as it asserts itself globally, America lacks a grand strategy to replace the Cold War's 'containment of communism'. In this volume, Gary Hart, until recently co-chair of the US Commission on National Security in the 21st Century, outlines a new principled approach, based on the power of American ideals, its 'fourth power'.
