Autore	Thayer Robert L
Titolo	LifePlace [[electronic resource] ] : bioregional thought and practice // Robert L. Thayer, Jr
Pubbl/distr/stampa	Berkeley, : University of California Press, c2003
ISBN	1-59734-714-0 9786612359606 1-282-35960-6 0-520-93680-9
Descrizione fisica	1 online resource (320 p.)
Collana	BFI Modern Classics
Disciplina	333.7/2
Soggetti	Bioregionalism Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 283-293) and index.
Nota di contenuto	Front matter -- Contents -- Illustrations -- Preface -- Introduction. Bioregional Thinking -- 1. Grounding. Finding the Physical Place -- 2. Living. Awakening to a Live Region -- 3. Re-inhabiting. Recovering a Bioregional Culture -- 4. Fulfilling. Celebrating the Spirit of Place -- 5. Imagining. Creating Art of the Life-Place -- 6. Trading. Exchanging Natural Values -- 7. Planning. Designing a Life-Place -- 8. Building. Making Bioregions Work -- 9. Learning. Spreading Local Wisdom -- 10. Acting. Taking Personal Responsibility -- Notes -- General Bibliography -- Index
Sommario/riassunto	Robert Thayer brings the concepts and promises of the growing bioregional movement to a wide audience in a book that passionately urges us to discover "where we are" as an antidote to our rootless, stressful modern lives. Life Place is a provocative meditation on bioregionalism and what it means to live, work, eat, and play in relation to naturally, rather than politically, defined areas. In it, Thayer gives a richly textured portrait of his own home, the Putah-Cache watershed in California's Sacramento Valley, demonstrating how bioregionalism can be practiced in everyday life. Written in a lively anecdotal style and expressing a profound love of place, this book is a guide to the

personal rewards and the social benefits of re-inhabiting the natural world on a local scale. In *LifePlace*, Thayer shares what he has learned over the course of thirty years about the Sacramento Valley's geography, minerals, flora, and fauna; its relation to fire, agriculture, and water; and its indigenous peoples, farmers, and artists. He shows how the spirit of bioregionalism springs from learning the history of a place, from participating in its local economy, from living in housing designed in the context of the region. He asks: How can we instill a love of place and knowledge of the local into our education system? How can the economy become more responsive to the ecology of region? This valuable book is also a window onto current writing on bioregionalism, introducing the ideas of its most notable proponents in accessible and highly engaging prose. At the same time that it gives an entirely new appreciation of California's Central Valley, *LifePlace* shows how we can move toward a new way of being, thinking, and acting in the world that can lead to a sustainable, harmonious, and more satisfying future.
