Sommario/riassunto	Malaria afflicts millions in low- and middle-income countries. For centuries, it has impaired economic growth, child development, learning, health, and productivity on a large scale. In 1998 the Bank cofounded, with WHO, UNICEF, and UNDP, the global Roll Back Malaria Partnership to coordinate and enhance the global fight against malaria. There has been some success, but the pace of work was slower than

desired and the scale was less than expected. The world now faces additional challenges, not the least of which is the emergence of drug-resistant forms of malaria. This new Global Strategy incr
