Sommario/riassunto	Environmental chemistry is becoming increasingly important and is crucial in the understanding of a range of issues, ranging from climate change to local pollution problems. Principles of Environmental Chemistry draws upon sections of the authors' previous text (Understanding our Environment) and reflects the growing trend of a more sophisticated approach to teaching environmental science at university. This new, revised text book focuses on the chemistry involved in environmental problems. Written by leading experts in the field, the book provides an in depth introduction to the chemical proc

Sommario/riassunto	British Science Fiction Cinema is the first substantial study of a genre which, despite a sometimes troubled history, has produced some of the best British films, from the prewar classic <i>Things to Come</i> to <i>Alien</i> made in Britain by a British director. The contributors to this rich and

provocative collection explore the diverse strangeness of British science fiction, from literary adaptions like Nineteen Eighty-Four and A Clockwork Orange to pulp fantasies and 'creature features' far removed from the acceptable face of British cinema. Through case studies of
