

1. Record Nr.	UNINA9910450469203321
Titolo	Methods and approaches in forest history [[electronic resource] /] / edited by M. Agnoletti and S. Anderson
Pubbl/distr/stampa	Wallingford, UK ; ; New York, : CABI Pub. in association with the International Union of Forestry Research Organizations (IUFRO), c2000
ISBN	1-280-81176-5 9786610811762 0-85199-933-6
Descrizione fisica	1 online resource (295 p.)
Collana	IUFRO research series ; ; 3
Altri autori (Persone)	AgnolettiMauro AndersonS <1956-> (Steven)
Disciplina	634.9/09
Soggetti	Forests and forestry Forest ecology Forest management Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Papers selected from a conference held in Florence, Italy, in 1998.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contributors; Preface; Introduction: the Development of Forest History Research; 1 Changing Roles of the Forest History Society: New Approaches to Environmental History in North America; 2 How Professional Historians Can Play a Useful Role in the Study of an Interdisciplinary Forest History; 3 Putting `Flesh on the Carbon-Based Bones' of Forest History; 4 Forest Management from Positivism to the Culture of Complexity; 5 Economic Areas and Forest Nature: the Search for Forest Images and the Understanding of Nature in the Past 6 The Age and Size of Hazel (<i>Corylus avellana</i> L.) Stools of Nato» Island, land Islands, SW Finland 7 The Study of Charcoal-burning Sites in the Apennine Mountains of Liguria (NW Italy) as a Tool for Forest History; 8 Local Economic History, Environmental History and Forest History: Some Swedish Experiences and Suggestions; 9 Socioeconomical and Ecological Aspects of Coppice Woods History in the Lower Vosges (France) and the Black Forest (Germany); 10 The Forest History of Boreal Sweden: a Multidisciplinary Approach

11 Preindustrial Forests in Central Europe as Objects of Historical±
Geographical Research 12 Methods Towards Studying Historical
Changes in Forest and Landscape Patterns: a Comparison between Two
Nearby Socioeconomic Contexts; 13 Temporal and Spatial Changes in a
Boreal Forest Landscape: GIS Applications; 14 Comparing Damages:
Italian and American Concepts of Restoration; 15 Searching for
Common Ground: Reconstructing Landscape History in East Africa's
Eastern Arc Mountains; 16 The `Alnoculture' System in the Ligurian
Eastern Apennines: Archive Evidence
17 Between Nature and Culture: the Contribution of Anthropology to
Environmental Study 18 Prehistoric Cultures and the Development of
Woodlands; 19 Integration between Genetic and Archaeobotanical Data
in a Study on the Evolutionary History of *Pinus halepensis* Mill.
Populations in Southern Italy; 20 Xylology and Forest History; 21
Bristlecone Pines and Tales of Change in the Great Basin; 22
Biodiversity and Forest Management: From Biodiversity to
Geochronodiversity; 23 Temporal Differences in Forest History at Two
Sites in Eastern North America; Index

Sommario/riassunto

A companion to "Forest History: International Studies on Socioeconomic and Forest Ecosystem Change" which includes over 20 papers from the same conference. It focuses on different approaches and methods adopted in the study of forest history.
