Translating Native Arabic Linguistic Terminology -- Chapter 10. Towards an Economy and Poetics of Translation from and into Arabic -- Bibliography -- Index
Sommario/riassunto	Translation is intercultural communication in its purest form. Its power in forming and/or deforming cultural identities has only recently been acknowledged, given the attention it deserves. The chapters in this unique volume assess translation from Arabic into other languages from different perspectives: the politics, economics, ethics, and poetics of translating from Arabic; a language often neglected in western

mainstream translation studies.

2. Record Nr.	UNINA9910794066803321
Autore	Bongartz Verena
