

1. Record Nr.	UNINA9910450520603321
Autore	Machholz Don <1952->
Titolo	The observing guide to the Messier marathon : a handbook and atlas / / Don Machholz [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2002
ISBN	1-107-13089-1 1-280-41904-0 9786610419043 0-511-53645-3 1-139-14728-5 0-511-17834-4 0-511-06363-6 0-511-05730-X 0-511-30555-9 0-511-07209-0
Descrizione fisica	1 online resource (xiii, 157 pages) : digital, PDF file(s)
Disciplina	522
Soggetti	Astronomy Galaxies Stars - Clusters Nebulae
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 93-95) and index.
Nota di contenuto	Cover; Half-title; Title; Copyright; Contents; Tables; Preface; Acknowledgments; Part 1 Handbook; Part 2 Atlas
Sommario/riassunto	The Messier Catalogue is a list of one hundred and ten galaxies, star clusters and nebulae, and includes many of the brightest and best-known objects in the sky. Amateur astronomers can challenge their abilities by attempting to find all the objects on the list in one night, and thus complete the Messier Marathon. This book contains over 90 easy-to-use star maps to guide the observer from one object to the next, and provides tips for a successful night of observing. The book also tells the story of the eighteenth-century astronomer, Charles

Messier, and how he came to compile his extensive catalogue. This complete guide to the Messier Marathon will help the amateur astronomer to observe the Messier Objects throughout the year, using a small telescope or even a pair of binoculars.
