Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [148]-151) and index. Includes Web resources.
Nota di contenuto	Development of the General Assembly -- The General Assembly process -- The General Assembly, the member states, and the rest of the UN system -- Key criticisms of the General Assembly in historical perspective -- The General Assembly in the twenty-first century.
Sommario/riassunto	The United Nations General Assembly is arguably the most important discussion forum in global politics. This is a concise and accessible introduction to its history, organization and politics. Examining the development of the Assembly as a forum for improving international cooperation, this study details its development of shared norms and goals in the political context of the immediate post-World War II era. The Assembly has had to adapt quickly to the Cold War, the South-North contentions over development, the dissolution of the Soviet bloc and the rise in concern about terrorism.
