Sommario/riassunto	In Todd Endelman's spare and elegant narrative, the history of British Jewry in the modern period is characterized by a curious mixture of prominence and inconspicuousness. British Jews have been central to the unfolding of key political events of the modern period, especially the establishment of the State of Israel, but inconspicuous in shaping the character and outlook of modern Jewry. Their story, less dramatic perhaps than that of other Jewish communities, is no less deserving of this comprehensive and finely balanced analytical account. Even though Jews were never completely absent from Britain after the expulsion of 1290, it was not until the mid- seventeenth century that a permanent community took root. Endelman devotes chapters to the resettlement;

to the integration and acculturation that took place, more intensively than in other European states, during the eighteenth century; to the remarkable economic transformation of Anglo-Jewry between 1800 and 1870; to the tide of immigration from Eastern Europe between 1870 and 1914 and the emergence of unprecedented hostility to Jews; to the effects of World War I and the turbulent events up to and including the Holocaust; and to the contradictory currents propelling Jewish life in Britain from 1948 to the end of the twentieth century. We discover not only the many ways in which the Anglo-Jewish experience was unique but also what it had in common with those of other Western Jewish communities.

Sommario/riassunto	German-speaking Exiles in Ireland 1933-1945 is a pioneering study of the impact the German-speaking exiles of the Hitler years had on Ireland as the first large group of immigrants in the country in the twentieth century. It therefore adds an important yet hitherto virtually unknown Irish dimension to international exile studies. After providing an overview of the topic and an analysis of current developments in exile studies the volume devotes two chapters to Jewish refugees and another to the considerable number of Austrian exiles, investigates the relationship between Irish government policy and public opinion, and explores the problems of identity faced by so many in exile. It then focuses on some eminent refugees - Erwin Schrödinger, Ludwig Bieler, Robert Weil, Ernst Scheyer, and Hans Sachs - before concluding with personal accounts by Ruth Braunizer (the daughter of Erwin Schrödinger, excerpts from whose diaries are published here for the first time), Monica Schefold (the daughter of John Hennig), and Eva Gross. The fourteen contributors to the volume are Wolfgang Benz, Ruth Braunizer, John Cooke, Horst Dickel, Eva Gross, Gisela Holfter, Dermot Keogh, Wolfgang Muchitsch, Siobhán O'Connor, Hermann Rasche, Monica Schefold, Birte Schulz, Raphael V. Siev, and Colin Walker.
