

1. Record Nr.	UNINA9910450702603321
Autore	Shima Hirohiko
Titolo	The geometry of Hessian structures [[electronic resource] /] / Hirohiko Shima
Pubbl/distr/stampa	Singapore ; ; Hackensack, N.J., : World Scientific, c2007
ISBN	1-281-12108-8 9786611121082 981-270-753-0
Descrizione fisica	1 online resource (261 p.)
Disciplina	516.36
Soggetti	Geometry, Differential Homology theory Homogeneous spaces Manifolds (Mathematics) Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 237-241) and index.
Nota di contenuto	Preface; Introduction; Contents; 1. Affine spaces and connections; 2. Hessian structures; 3. Curvatures for Hessian structures; 4. Regular convex cones; 5. Hessian structures and affine differential geometry; 6. Hessian structures and information geometry; 7. Cohomology on at manifolds; 8. Compact Hessian manifolds; 9. Symmetric spaces with invariant Hessian structures; 10. Homogeneous spaces with invariant Hessian structures; 11. Homogeneous spaces with invariant projectively at connections; Bibliography; Index
Sommario/riassunto	The geometry of Hessian structures is a fascinating emerging field of research. It is in particular a very close relative of Kahlerian geometry, and connected with many important pure mathematical branches such as affine differential geometry, homogeneous spaces and cohomology. The theory also finds deep relation to information geometry in applied mathematics. This systematic introduction to the subject first develops the fundamentals of Hessian structures on the basis of a certain pair of a flat connection and a Riemannian metric, and then describes these related fields as applications of the

2. Record Nr.	UNINA9910479910003321
Titolo	Saul, Benjamin, and the emergence of monarchy in Israel : biblical and archaeological perspectives / / edited by Joachim J. Krause, Omer Sergi ,Kristin Weingart
Pubbl/distr/stampa	Atlanta : , : SBL Press, , [2020] ©2020
ISBN	0-88414-451-8
Descrizione fisica	1 online resource (xii, 233 pages)
Collana	Ancient Israel and its literature ; ; Number 40
Disciplina	221.67
Soggetti	Jews - Kings and rulers Monarchy - History Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Saul, Benjamin, and the Emergence of Monarchy in Israel : Problems and Perspectives / Joachim J. Krause, Omer Sergi, and Kristin Weingart -- On Philistines and Early Israelite Kings : Memories and Perceptions / Ido Koch -- Saul and Highlands of Benjamin Update : The Role of Jerusalem / Israel Finkelstein -- Saul, David, and the Formation of the Israelite Monarchy : Revisiting the Historical and Literary Context of 1 Samuel 9 through 2 Samuel 5 / Omer Sergi -- Possible Historical Settings of the Saul-David Narrative / Wolfgang Oswald -- The Land of Benjamin between the Emerging Kingdoms of Israel and Judah : A Historical Hypothesis on the Reign of Rehoboam / Joachim J. Krause -- Jeroboam and Benjamin : Pragmatics and Date of 1 Kings 11:26-40; 12: 1-20 / Kristin Weingart -- Benjamin in Retrospective : Stages in the Creation of the Territory of the Benjamin Tribe (Seventh through Fifth Centuries BCE) / Oded Lipschits -- The Israelite Tribal System : Literary Fiction or Social Reality? / Erhard Blum.
Sommario/riassunto	"A reconstruction of the emergence of the Israelite monarchies involves interpreting historical research, approaching questions of ancient state formation, synthesizing archaeological research from sites in the central Canaanite hill country, and reexamining the biblical traditions of

the early monarchy embedded in the books of Samuel and Kings. This collection of essays blends textual exegesis with archaeological perspectives on Saul and Benjamin in order to reconstruct the rise of early monarchy in Israel and the way it was commemorated in the biblical narrative"--
