

1. Record Nr.	UNINA9910450720703321
Titolo	Water productivity in agriculture [[electronic resource]] : limits and opportunities for improvement / / edited by Jacob W. Kijne, Randolph Barker, and David Molden
Pubbl/distr/stampa	Oxon ; Cambridge, MA, : CABI Pub., c2003
ISBN	1-280-83384-X 9786610833849 1-84593-339-7
Descrizione fisica	1 online resource (352 p.)
Collana	Comprehensive assessment of water management in agriculture series ; ; 1
Altri autori (Persone)	KijneJ. W BarkerRandolph MoldenD. J
Disciplina	631.7
Soggetti	Water in agriculture Irrigation farming Crops and water Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Contributors; Series Foreword: Comprehensive Assessment of Water Management in Agriculture Series; Improving Water Productivity in Agriculture: Editors' Overview; 1 A Water-productivity Framework for Understanding and Action; 2 Economics of Water Productivity in Managing Water for Agriculture; 3 The Concept of Efficiency in Waterresources Management and Policy; 4 Rice Production in Water-scarce Environments; 5 Managing Saline and Alkaline Water for Higher Productivity; 6 Water Productivity under Saline Conditions 7 Opportunities for Increasing Water Productivity of CGIAR Crops through Plant Breeding and Molecular Biology8 Management of Drought in ICRISAT Cereal and Legume Mandate Crops; 9 Water Productivity in Rain-fed Agriculture: Challenges and Opportunities for Smallholder Farmers in Drought-prone Tropical Agroecosystems*; 10 World Water Productivity: Current Situation and Future Options; 11 Improving Water

Productivity in the Dry Areas of West Asia and North Africa; 12 Efficient Management of Rainwater for Increased Crop Productivity and Groundwater Recharge in Asia

13 Water Productivity in Forestry and Agroforestry 14 Water Productivity and Potato Cultivation; 15 Rice-Wheat Cropping Systems in the Indo-Gangetic Plains: Issues of Water Productivity in Relation to New Resourceconserving Technologies; 16 Land and Water Productivity of Wheat in the Western Indo-Gangetic Plains of India and Pakistan: a Comparative Analysis; 17 Reform of the Thai Irrigation Sector: is there Scope for Increasing Water Productivity?; 18 Upscaling Water Productivity in Irrigated Agriculture Using Remote-sensing and GIS Technologies

19 Improving Water Productivity through Deficit Irrigation: Examples from Syria, the North China Plain and Oregon, USA Appendix A A Note on Transpiration; Appendix B Note on Agronomic Practices for Increasing Crop Water Productivity; Index

Sommario/riassunto

Focusing on both irrigated and rain-fed agriculture, this book gives a review of the limits and opportunities for improving water productivity in crop production. It demonstrates how efficiency of water use can be enhanced to maximize yields.
