

1. Record Nr.	UNINA9910450754603321
Autore	Johnson Paul S
Titolo	The ecology and silviculture of oaks [[electronic resource] /] / Paul S. Johnson and Stephen R. Shifley and Robert Rogers
Pubbl/distr/stampa	Wallingford, Oxon ; ; New York, : CABI, c2002
ISBN	1-280-82968-0 9786610829682 0-85199-855-0
Descrizione fisica	1 online resource (518 p.)
Altri autori (Persone)	ShifleyStephen R RogersRobert <1941->
Disciplina	634.9/721/0973
Soggetti	Oak - United States Oak - Ecology - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface; Acknowledgements; Introduction; 1 Oak-dominated Ecosystems; 2 Regeneration Ecology I: Flowering, Fruiting and Reproduction Characteristics; 3 Regeneration Ecology II: Population Dynamics; 4 Site Productivity; 5 Development of Natural Stands; 6 Self-thinning and Stand Density; 7 Even-aged Silvicultural Methods; 8 Uneven-aged Silvicultural Methods; 9 Silvicultural Methods For Multi-resource Management; 10 Growth and Yield; Appendix 1; Appendix 2; Appendix 3; Appendix 4; Appendix 5; Appendix 6; Appendix 7; Index
Sommario/riassunto	The current trend in managing forests and forested landscapes is away from a narrow focus on sustaining timber and other commodity outputs and toward a broader philosophy of sustaining desired ecosystems. This book is a source of ideas on how to think about oak forests as responsive ecosystems.
