out at Night: Domestication and the Taming of the Wild; 10 Of Rice, Mammals, and Men: The Politics of "Wild" and "Domesticated" Species in Vietnam; 11 Feeding the Animals; Index

Sommario/riassunto

An examination of the concept of domestication against the shifting background of relationships among humans, animals and plants. It explores the relevance of domestication for anthropologists and scholars in related fields who are concerned with understanding ongoing change in processes affecting humans as well as other species.
