Disciplina	949.703
Soggetti	Operation Allied Force, 1999 National security - Balkan Peninsula Electronic books. Yugoslavia History 1992-2003 Balkan Peninsula History 20th century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; International Intervention in the Balkans since 1995; Copyright; Contents; Contributors; Acknowledgements; Abbreviations; Introduction: International intervention (and non-intervention) in the Balkans; 1 Intervention in the Balkans: An unfinished learning process; 2 The concept of humanitarian intervention; 3 The controversies of Euro-Atlantic interventionism in the Balkans; 4 Mostar: International intervention in a divided Bosnian town, 1994-2001; 5 When our men arrive: UNMIK's post-conflict administration of Kosovo 6 International intervention in Macedonia: From preventive engagement to peace implementation 7 The impact of international intervention on domestic political outcomes: Western coercive policies and the Milosevic regime; 8 From kanun to capacity-building: The 'internationals', civil society development and security in the Balkans; 9 Securing the community?: An examination of international psychosocial intervention; 10 Beyond intervention?: The Balkans, the Stability Pact and the European Union; 11 Gaps of concern: An inconclusive conclusion; Index
Sommario/riassunto	This volume offers an analysis of the activities of the international

community in the Balkans since the 1995 Dayton Agreement. There has been substantial investment in the region but so far the gains have been limited and doubts remain as to the extent that sustainable security has been enhanced. There is a need for serious reassessment of policies and priorities, but this depends on a careful analysis of past successes and failures. The contributors seek to provide this by examining intervention, not just in terms of military action and the activities of major international agencies at state

Nota di contenuto	Design of Studies for Medical Research; Contents; Preface; Chapter 1 What is Evidence?; Chapter 2 Measurement, Forms and Questionnaires; Chapter 3 Principles of Study Size Calculation; Chapter 4 Randomisation; Chapter 5 Cross-sectional and Longitudinal Studies; Chapter 6 Surveys, Cohort and Case-Control Studies; Chapter 7 Clinical Trials - General Issues; Chapter 8 Early Clinical Trials; Chapter 9 Phase III Trials; Chapter 10 Diagnosis; Chapter 11 Prognostic Factor Studies; References; Tables; Index
Sommario/riassunto	The same careful rigour imposed on the design of phase III randomised

controlled trials is not always applied to medical research in other areas such as trials conducted at earlier stages of drug development. With the emphasis that is now placed on evidence-based medicine, such care and rigour will inevitably impact on these areas with increasing attention turned to the quality of design. This title describes what principles can be used to structure research effectively allowing for the required degree of accuracy. Written by two best selling authors, this book includes many examples f
