Descrizione fisica	1 online resource (250 p.)
Disciplina	339
Soggetti	Macroeconomics Macroeconomics - History Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [219]-232) and index.
Nota di contenuto	Book Cover; Title; Copyright; Contents
Sommario/riassunto	Interpreting Macroeconomics explores a variety of different approaches to macroeconomic thought. The book considers a number of historiographical and methodological positions, as well as analyzing various important episodes in the development of macroeconomics, before during and after the Keynesian revolution. Roger Backhouse shows that the full richness of these developments can only be brought out by approaches which blend both relativism and absolutism, and historical and rational reconstructions. Examples discussed include Hobson, Keynes and Friedman.
