Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Description based upon print version of record. Note generali Nota di contenuto Cover; CONTENTS; Editorial; Transferability of approaches to sustainable development at universities as a challenge; Do sustainability projects stimulate organizational learning in universities?: Developing key competencies for sustainable development in higher education; Managing sustainability communication on campus: experiences from Lu neburg: The Luneburg Sustainable University Project in international comparison; News; Diary; Books and resources; News from the net; Feature Sommario/riassunto The articles of this e-book present theoretical considerations, empirical findings and practical experiences from the Luneberg Sustainable University research and development project. This draws attention to the fact that integrating sustainability into higher education institutions needs theoretical reflection as well as to show that sustainability in higher education can be articulated, substantiated and put into action. The results of this research and development project can serve as a valuable starting point for other higher education institutions which
