

1. Record Nr.	UNINA9910450902903321
Titolo	Structure and function of an alpine ecosystem [[electronic resource]] : Niwot Ridge, Colorado // edited by William D. Bowman, Timothy R. Seastedt
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2001
ISBN	0-19-756117-9 1-280-76153-9 9786610761531 0-19-534429-4
Descrizione fisica	1 online resource (352 p.)
Collana	Long-Term Ecological Research Network series
Altri autori (Persone)	BowmanWilliam D SeastedtTimothy R
Disciplina	577.538 577.5380978863
Soggetti	Mountain ecology - Colorado - Niwot Ridge Environmental sciences Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"LTER."
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Contributors; Foreword; 1 Introduction: Historical Perspective and Significance of Alpine Ecosystem Studies; I: Physical Environment; II: Ecosystem Structure; III: Ecosystem Function; IV: Past and Future; Index
Sommario/riassunto	The alpine ecosystem features conditions near the limits of biological existence, and is a useful laboratory for asking more general ecological questions. This book provides an overview of an alpine ecosystem, based on research at Niwot Ridge, Colorado.
