Sommario/riassunto

In an era of globalization and demographic transition international migration has become an important issue for European governments. The past decades have seen an increasing and diversifying flow of migrants from different parts of the world, including many from South, Southeast and East Asia. It has become apparent that in several European countries the demand for workers in certain sectors of the labour market is increasing and that Asia has become the source for these workers. This collection explores the phenomenon of Asian immigration in Europe, particularly focusing on the ways
