Sommario/riassunto	Destined to become the standard guide to the economic policy of the United States during the Reagan era, this book provides an authoritative record of the economic reforms of the 1980's. In his introduction, Martin Feldstein provides compelling analysis of policies with which he was closely involved as chairman of the Council of Economic Advisers during the Reagan administration: monetary and exchange rate policy, tax policy, and budget issues. Other leading economists and policymakers examine a variety of domestic and international issues, including monetary and exchange rate policy, regulation and antitrust, as well as trade, tax, and budget policies. The contributors to this volume are Alberto Alesina, Phillip Areeda, Elizabeth Bailey, William F. Baxter, C. Fred Bergsten, James Burnley,

Geoffrey Carliner, Christopher DeMuth, Douglas W. Elmendorf, Thomas O. Enders, Martin Feldstein, Jeffrey A. Frankel, Don Fullerton, William M. Isaac, Paul L Joskow, Paul Krugman, Robert E.
