

1. Record Nr.	UNINA9910450935903321
Autore	Farinacci Jeff A
Titolo	Guide to observing deep-sky objects [[electronic resource]] : a complete global resource for astronomers // Jeff A. Farinacci
Pubbl/distr/stampa	New York, : Springer Science + Business Media, c2008
ISBN	1-281-13033-8 9786611130336 0-387-72851-1
Edizione	[1st ed. 2008.]
Descrizione fisica	1 online resource (206 p.)
Collana	Patrick Moore's practical astronomy series
Disciplina	523.8
Soggetti	Astronomy Constellations Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Introduction -- How to use the software -- Constellation List -- Appendices.
Sommario/riassunto	Guide to Observing Deep-Sky Objects is an invaluable reference for all amateur astronomers. The book contains, for each constellation, (1) a star chart showing the Bayer labels, (2) a table for many of the stars in the constellation, along with their positions and magnitudes, and (3) a table of the major deep-sky objects in the constellation, with relevant observational data. Facing pages provide unique year-long graphs that show when the constellation is visible in the sky, which allows the user to quickly determine whether a given constellation can be seen, and when the best time to see it will be.
