Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Book Cover; Title; Copyright; Acknowledgments; Contributor List; Contents
Sommario/riassunto	Noted scholars from a broad range of sub-disciplines in psychology discuss the ways in which the memories of our lives come to influence who we are, our personalities, and our emotional functioning. Other topics covered include how our personalities and self-concepts influence what we remember from our lives, and the notion of memory and the self as interdependent psychological phenomena.
