Registered Indian mobility and migration in Canada: patterns and implications
Local contingency; The politics of Maori mobility; American Indians and geographic mobility: some parameters for public policy; The formation of contemporary Aboriginal settlement patterns in Australia: government policies and programmes; Myth of the ~walkabout~: movement in the Aboriginal domain; The social underpinnings of an ~outstation movement~ in Cape York Peninsula, Australia; Conclusion: emerging research themes; Index

Sommario/riassunto

This book draws together relevant research findings to produce the first comprehensive overview of Indigenous peoples' mobility. Chapters draw from a range of disciplinary sources, and from a diversity of regions and nation-states. Within nations, mobility is the key determinant of local population change, with implications for service delivery, needs assessment, and governance. Mobility also provides a key indicator of social and economic transformation. As such, it informs both social theory and policy debate. For much of the twentieth century conventional wisdom anticipated the steady conve
