Sommario/riassunto	The European Commission is an organization which has come to fascinate or repulse a range of national politicians, journalists and

social scientists. In contrast to the prevailing image of the Commission as a 'bureaucrat's paradise', however, and by using the results of original research, this book deliberately sets out to investigate this organization's relationship to politics. It does so first by developing a variety of case-studies (health, development aid, preparations for Eastern enlargement, etc.) as a means of studying the relationships, networks and interdependencies which link commis
