Sommario/riassunto	Globalisation is widely understood as a set of processes driven by technological, economic and cultural change. Few have successfully defined the changing character and role of politics in global change. Political institutions such as the nation-state have been seen as undermined by globalisation, or needing to respond to it. This book clarifies the tensions which global change has provoked in our understanding of politics. Politics and Globalisation suggests that globalisation is a process which is politically contested and even politically constituted. The volume presents five ke
