

1. Record Nr.	UNINA9910451014903321
Autore	Sedgwick Mark
Titolo	Saints and Sons : The Making and Remaking of the Rashidi Ahmadi Sufi Order, 1799-2000 // Mark Sedgwick
Pubbl/distr/stampa	Leiden; ; Boston : , : BRILL, , 2005
ISBN	1-280-85978-4 9786610859788 90-474-0607-9 1-4337-0589-3
Descrizione fisica	1 online resource (271 p.)
Collana	Social, Economic and Political Studies of the Middle East and Asia ; ; 97
Disciplina	297.4/8
Soggetti	Ahmadiyya - History Islam Islamic sects - History Sufism - History Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	List of maps; Preface; Note on transliteration and dating; Introduction; Chapter One Ahmad ibn Idris; Chapter Two The tariqa Muhammadiyya; Chapter Three The Sanusiyya and the Khatmiyya; Chapter Four The Ahmadiyya under al-Rashid; Chapter Five The Ahmadiyya after the death of al-Rashid; Chapter Six The spread of the Dandarawi Ahmadiyya in the Arab world; Chapter Seven The spread of the Dandarawi Ahmadiyya in the Malay world; Chapter Eight Adulation in Egypt; Chapter Nine Institutionalization in Seremban; Chapter Ten Modernity in Singapore; Chapter Eleven Modernity in Cairo and Beirut Chapter Twelve The authority of shaykhsGlossary; List of interviewees; Bibliography; Index
Sommario/riassunto	This first history of the Rashidi Ahmadiyya argues for a new explanation of the great Sufi revival of the eighteenth century, and also defines a new paradigm of development and change in Sufi orders. In his study of one widespread Sufi order over two centuries and three continents, the author identifies a repeating cycle in which a section of

an order rises under a great shaykh, splits, and stabilizes. Though each great shaykh seems to remake the order with little reference to what has gone before, there are in fact two constants through all cycles: the written literature of the order, and the limiting effect on even the greatest shaykhs of their followers' expectations.

2. Record Nr.	UNINA9910700760103321
Autore	McClung R. C (R. Craig), <1959->
Titolo	Integration of NASA-developed lifing technology for PM alloys into DARWIN® [[electronic resource] /] / R. Craig McClung, Michael P. Enright, and Wuwei Liang
Pubbl/distr/stampa	Cleveland, Ohio : , : National Aeronautics and Space Administration, Glenn Research Center, , [2011]
Descrizione fisica	1 online resource (vi, 73 pages) : color illustrations
Collana	NASA/CR ; ; 2011-216977
Altri autori (Persone)	EnrightMichael P LiangWuwei
Soggetti	Prediction analysis techniques Life (durability) Nickel alloys Powder metallurgy Rotors Gas turbine engines Measure and integration
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Aug. 2, 2011). "March 2011."
Nota di bibliografia	Includes bibliographical references (pages 67-73).

3. Record Nr.	UNINA9910779771403321
Autore	Xin Yan Ping
Titolo	Conceptual model-based problem solving [[electronic resource]] : teach students with learning difficulties to solve math problems // Yan Ping Xin
Pubbl/distr/stampa	Rotterdam ; ; Boston, : Sense Publishers, c2012
ISBN	94-6209-103-X 94-6209-104-8
Edizione	[1st ed. 2012.]
Descrizione fisica	1 online resource (266 p.)
Collana	Career Development Series ; ; v.5
Disciplina	370
Soggetti	Mathematics - Study and teaching (Elementary) - United States Problem-based learning Learning disabled children - Education - United States Inclusive education - United States Learning strategies - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 267-268).
Nota di contenuto	Preliminary Material -- Conceptual Model-based Problem Solving -- COMPS Program -- Representing Part-Part-Whole (PPW) Problems -- Solving Part-Part Whole (PPW) Problems -- Representing Additive Compare (AC) Problems -- Solving Additive Compare (AC) Problems -- Solving Mixed PPW and AC Problems -- Representing Equal Groups (EG) Problems -- Solving Equal Groups (EG) Problems -- Representing Multiplicative Compare (MC) Problems -- Solving Multiplicative Compare (MC) Problems -- Solving Mixed Equal Groups and Multiplicative -- Solving Complex Word Problems -- Solving Mixed Multi-Step Problems -- Connection between Mathematical Ideas -- Student Worksheets -- Reference Guide -- References.
Sommario/riassunto	Are you having trouble in finding Tier II intervention materials for elementary students who are struggling in math? Are you hungry for effective instructional strategies that will address students' conceptual gap in additive and multiplicative math problem solving? Are you searching for a powerful and generalizable problem solving approach that will help those who are left behind in meeting the Common Core

State Standards for Mathematics (CCSSM)? If so, this book is the answer for you. • The conceptual model-based problem solving (COMPS) program emphasizes mathematical modeling and algebraic representation of mathematical relations in equations, which are in line with the new Common Core. • “Through building most fundamental concepts pertinent to additive and multiplicative reasoning and making the connection between concrete and abstract modeling, students were prepared to go above and beyond concrete level of operation and be able to use mathematical models to solve more complex real-world problems. As the connection is made between the concrete model (or students’ existing knowledge scheme) and the symbolic mathematical algorithm, the abstract mathematical models are no longer “alien” to the students.” As Ms. Karen Combs, Director of Elementary Education of Lafayette School Corporation in Indiana, testified: “It really worked with our kids!” • “One hallmark of mathematical understanding is the ability to justify, ... why a particular mathematical statement is true or where a mathematical rule comes from” (<http://illustrativemathematics.org/standards>). Through making connections between mathematical ideas, the COMPS program makes explicit the reasoning behind math, which has the potential to promote a powerful transfer of knowledge by applying the learned conception to solve other problems in new contexts. • Dr. Yan Ping Xin’s book contains essential tools for teachers to help students with learning disabilities or difficulties close the gap in mathematics word problem solving. I have witnessed many struggling students use these strategies to solve word problems and gain confidence as learners of mathematics. This book is a valuable resource for general and special education teachers of mathematics. - Casey Hord, PhD, University of Cincinnati.
