Nota di contenuto	Introduction / Forrest H. Capie and Geoffrey E. Wood -- Theoretical issues pertaining to monetary unions / Bennet T. McCallum ; Comments by Peter Sinclair, Geoffrey E. Wood -- The future of EMU: what does the history of monetary unions tell us? / Michael D. Bordo and Lars Jonung ; Comments by Tim Congdon, Charles Goodhart -- How long did it take the United States to become an optimal currency area? / Hugh Rockoff ; Comments by Ronald McKinnon, Anna J. Schwartz -- The bank, the states, and the market: an Austro-Hungarian tale for Euroland, 1867-1914 / Marc Flandreau ; Comments by Luca Einaudi -- The future of the euro: a public choice perspective / Roland Vaubel ; Comments by Fabrizio Zampolli, Mark Salmon.
Sommario/riassunto	The Economic and Monetary Union (EMU) in which some members of the European Union have joined, has prompted much discussion of monetary union. Most of this discussion has focused on the immediate issues, such as prospects for the Euro and the possibility of expanding the Euro-zone. This book stands back and considers the relevant

theory or what lessons might be drawn from other unions that have been formed in the past as well as looking at EMU directly.
