| Sommario/riassunto | Akbarzadeh and Saeed explore one of the most challenging issues facing the Muslim world: the Islamisation of political power. They present a comparative analysis of Muslim societies in West, South, |

Central and South East Asia and highlight the immediacy of the challenge for the political leadership in those societies. Islam and Political Legitimacy contends that the growing reliance on Islamic symbolism across the Muslim world, even in states that have had a strained relationship with Islam, has contributed to the evolution of Islam as a social and cultural factor to an entrenched pol

Sommario/riassunto

Sanctuary Cities and Urban Struggles makes the first sustained intervention into exploring how cities are challenging the primacy of the nation-state as the key guarantor of rights and entitlements. It brings together cutting-edge scholars of political geography, urban geography, citizenship studies, socio-legal studies and refugee studies to explore how urban social movements, localised practices of belonging and rights claiming, and diverse articulations of sanctuary are reshaping the governance of migration. By offering a collection of empirical cases and conceptualisations that move beyond 'seeing like a state', Sanctuary Cities and Urban Struggles proposes not a singular alternative but rather a set of interlocking sites and scales of political imagination and practice. In an era when migrant rights are under attack and nationalism is on the rise, the topic of how citizenship, rights and mobility can be recast at the urban scale is more relevant than ever.

Sommario/riassunto

The practical manual for pediatricians and endocrinologists Practical Endocrinology and Diabetes in Children, Second Edition, continues to provide a very practical overview of managing endocrine problems in children. Coverage of each disorder reflects its clinical importance. The material is organized in such a way that it can be referred to at a moment's notice. Helpful overviews of epidemiology, pathophysiology, investigations, differential diagnoses and psychosocial issues support the advice on management principles. New features of this Second Edition inclu
