Sommario/riassunto	Is the solar system stable? Is there a unifying 'economy' principle in mechanics? How can a pointmass be described as a 'wave'? This book offers students an understanding of the most relevant and far reaching results of the theory of Analytical Mechanics, including plenty of examples, exercises, and solved problems. - ;Analytical Mechanics is the investigation of motion with the rigorous tools of mathematics. Rooted in the works of Lagrange, Euler, Poincar--eacute--; (to mention just a few), it is a very classical subject with fascinating developments

and still rich of open problems. It address

Sommario/riassunto

This is the first comprehensive textbook on intracranial metastases in over 20 years with an update on current methods for their management, including the use of newer technologies. Each of the various histological types of cancer metastasizing to the brain is presented separately in a detailed analysis and discussion. This volume includes a consideration of the epidemiology of brain metastases and the quality of life in patients who have them. Special topics not previously covered are reviewed, including metastasis to the skull base and strategies

The Challenges Facing Islamic Trade Finance in Promoting SMEs in IsDB Member Countries -- Chapter 8. Overcoming Financial Inclusion Challenges through Digital Finance.
Sommario/riassunto	This book discusses financial inclusion, gender equality, regulatory regimes for microfinance, women empowerment, and digital finance from an Islamic perspective. It encourages the reader to reflect on whether the delivery of financial services from an Islamic perspective might be attainable and lead to achieving global financial inclusion. Accessing financing is one of the most formidable challenges facing disadvantaged in IsDB member countries. The race to serve these niche markets has led to the emergence of conventional microfinance. There

remains the lingering question of whether conventional microfinance in its current form has conclusively led to poverty alleviation among Muslim communities. Hence, there is a need of having Shari'ah-compliant business model that depends on Islamic socio-economic tools such as Zakah, Sadaqah, and Waqf might best address the needs self-financial exclusion or the exclusion of the extremely poor in Muslim. Abdelrahman Elzahi SaaidAli is Senior Economist at the Islamic Development Bank Institute (IsDBi). Before joining IsDBi in 2008, Dr. Elzahi held a faculty position as Associate Professor of Economics at Sudan University of Science and Technology. Dr. Elzahi received his BSc in Banking and Finance from Sudan University of Science and Technology, MA in Economics from Omdurman Islamic University, Sudan, and PhD in Economics from the International Islamic University Malaysia. He is a co-editor of Revitalization of Waqf Economic Development, Volumes I & II, and the main author of Volumes I & II of Financial Inclusion through Islamic Finance. His current research areas include Digital Financial Inclusion Technology Adoption in achieving sustainable development.
