Sommario/riassunto	The Logic of Liberal Rights uses basic logic to develop a model of argument presupposed in all disputes about civil rights and liberties. No prior training in logic is required, as each step is explained. This analysis does not merely apply general logic to legal arguments but is

also specifically tailored to the issues of civil rights and liberties. It shows that all arguments about civil rights and liberties presuppose one fixed structure and that there can be no original argument in rights disputes, except within the confines of that structure. Concepts arising in disputes about ri
