Soggetti	Popular music - United States - To 1901 - History and criticism Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Originally published : New York : Oxford University Press, 1994.
Nota di bibliografia	Includes bibliographical references and indexes.
Sommario/riassunto	Jon Finson views the mores and values of nineteenth-century Americans as they appear in their popular songs. Presenting a guided tour of topically arranged, select songs, he points out the most important landmarks, as well as lesser sights that provide colour and context, and obscure but treasurable parts of the scenery previously overlooked.
